

SIMPLY THE BEST.

# Invitation

to the Competence Days of the WITTMANN group  
on 28 and 29 April 2010  
Kottingbrunn, Austria

# SIMPLY THE BEST.

Ladies and Gentlemen,

It is our pleasure to invite you again to our Competence Days at our production plant in Kottlingbrunn / Austria on 28 and 29 April 2010.

Under this year's motto, "Simply the Best", we are presenting innovative injection molding technology and intelligent peripheral equipment. In addition to demonstrations of our latest developments, the program includes speeches about energy efficiency, cost-efficient manufacturing and modern process technologies, as well as a lecture from a guest speaker.

Subsequently more than 70 exhibits will give you a comprehensive overview of our innovations. We will be showing numerous applications from the sectors of high-speed, multi-component, medical, LSR and micro foam technology, as well as water injection, projectile injection and industrial injection molding technology. You can look forward to an absolute highlight: the new *PowerSeries* will be presented to you before everyone else and before its official world premiere at the K trade fair.

"Simply the Best" – this stands as a synonym for the *PowerSeries* range with its *EcoPower*, *MicroPower* and *MacroPower* series. These latest developments are the result of many years of experience and consistent innovative strength. They will give you the decisive competitive edge.

Two days, one program: for the Competence Days, you can choose the date that suits you best. The speeches will be held in German and simultaneously translated into English.

On both days, we are also offering tours of the production plants in Vienna and Mosonmagyaróvár (Hungary). Make use of this unique opportunity to get advance information about novelties and latest trends in injection molding and peripheral technology before the K show.

WITTMANN and WITTMANN BATTENFELD stand for innovative, custom-made turnkey solutions in plastics processing. From injection molding machines to the complete range of peripheral equipment. Everything from a single source and "Simply the Best"!

We look forward to seeing you!

Technology working for you.

Robots

Conveyors

Temperature controllers

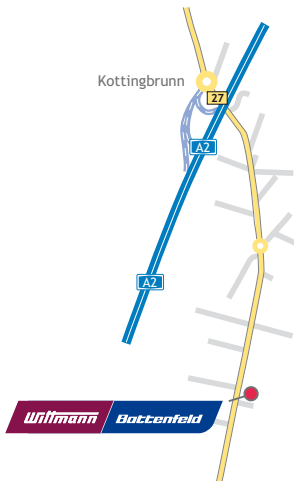

Dryers

Granulators

# COMPETENCE DAYS The Program.

9.00	<i>Registration</i>
9.45	<i>Welcome</i>
<i>Speeches</i>	<p>Plastics: From design to finished product</p> <p><i>MicroPower:</i> Micro injection molding in new perfection</p> <p><i>MacroPower:</i> The new standard among large machines</p> <p><i>EcoPower:</i> Servo-electric for a clean future</p>
11.30–11.50	<i>Coffee break</i>
<i>Speeches</i>	<p>Energy efficiency and cost efficiency: What really counts?</p> <p>Modern process technology setting new boundaries</p> <p>WITTMANN automation systems: The benchmark for your lead</p>
12.50–14.00	<i>Lunch break</i>
14.00–16.00	<i>Machine demonstrations</i>
18.00	<i>Evening program on 28 April 2010</i>
